WILL PROSECUTE BRANDY MAKERS

Sheriff Jones Gets Ruling on Question.

Attorney General Bickett States That It Is a Clear Violation of Law To Manufacture Brandy and That Words "For Gain" Applies Only to Sale of Product—Position of the Federal Government in Matter.

As was mentioned in The Telegram some days ago several Guilford people have given bond as required under the internal revenue laws to manufacture brandy for their own use, the federal laws requiring that all distillers shall give bond in the sum of \$1,000 as a guarantee that the tax will be paid on every gallon of the manufactured product.

As soon as Sheriff Jones was approached about the matter he called on Attorney General Bickett and was advised that the manufacture of brandy was a violation of the law, Mr. Bickett promising to write his opinion in a few days. Those who filed application stated that attorneys had advised that to manufacture brandy for one's own use would not be in violation of the statutes, contending that the words "for gain" allowed it to be made for one's own use. They also stated that brandy was being made in other parts of the State.

Section one of the State prohibition law contains the following which bears on this question: "That it shall be unlawful for any person or persons, firm or corporation to manufacture or in any manner make, or sell, or otherwise dispose of, for gain, any spirituous, vinous, fermented or malt liquors or intoxicating bitters within the state of North Carolina." The above makes it clear that the manufacture of brandy, even for use by only the manufacturer, is prohibited by the law, according to the belief of a number of leading attorneys in the city who agree with the attorney general in his opinion. Attorney General Bickett's opinion is short and to the point. He says: "Replying to your inquiry I beg to advise that in my opinion the manufacture of brandy in North Carolina is in violation of our prohibition law. The words 'for gain' apply to the sale or disposition of intoxicating liquors and not to the manufacture."

When the first bond was filed with Deputy Collector Starbuck he was somewhat in doubt as to the proper course to pursue and accordingly wrote the collector of the Eastern District for advice. The reply received stated that when a person filed his bond and it was found that such applicant had complied with all the requirements and regulations of the Internal Revenue laws then the deputy collector had no power to refuse to accept the bond. However, the collector instructed his deputies to inform all such applicants of the position in which the federal government is placed and the applicant can then use his own judgment in filing bond. The concluding paragraph of the collector's letter says: "In such cases the party should be given to understand that the approval of a distiller's bond by the collector although authorizing him under the Internal Revenue laws to engage in the business of distilling will not exempt him from any penalty or punishment provided by the laws of the state for carrying on such business within the state, nor will it in any manner authorize the commencement or continuance of such business contrary to the laws of the State."

This shows that the United States while accepting a bond required of a distiller does not seek to induce a person to violate the State law, but it is placed in a position where it cannot legally refuse to accept and approve bonds when every requirement under the federal laws has been complied with. Nor will it seek to protect such distiller from punishment imposed by the State courts for violating the State laws.

So far three bonds have been filed with the deputy collector and Sheriff Jones states that if those who filed the bonds begin the manufacture of brandy they will be promptly arrested and sent over to court.

The Baby Opera will be Wednesday 4th, instead of 23d, as before advertised. The admission will be only 50 and 10c. No extra charge for reserved seats.

BOY FALLS FROM TRAIN.

Little Son of Mr. Jas. H. West Sustained Serious Injuries Yesterday Afternoon.

A number of boys ranging from eight to sixteen years or over have been in the habit of catching the Winston train as it is swung around the "Y" every afternoon a few minutes after six to get a free ride and yesterday afternoon one youngster came to grief and had a narrow escape from a horrible death.

Little Johnny West, the 9-year-old son of Mr. and Mrs. J. H. West, attempted to catch the train yesterday afternoon and just as he was about to grab the hand rail on the steps some of the trainmen hollered at him, telling him to get off, and he turned to look at them and missed his footing, falling to the ground very nearly under the wheels, the step or break beam catching him and rolling him over and over time and again until his body was covered with a mass of bruises. One of the yardmen saw the accident and pulled the little fellow out from under the car in time to save his life. He was terribly bruised and his clothes were nearly torn off him, but no bones broken.

An ambulance was summoned and he was carried to the home of his parents on North Cedar street where Dr. Michaux attended him. While his injuries are not regarded as serious it will probably be several days before he can get around to any extent.

VERDICT FOR PLAINTIFF.

Paul Lindley Gets Damages To Amount of Eight Hundred Dollars.

In Guilford Superior Court yesterday afternoon the jury in the case of Paul Lindley vs. Fries Manufacturing & Power Company returned a verdict awarding the plaintiff \$800 damages. The suit was to recover \$10,000 damages on account of injuries received when Mr. Lindley's auto and a street car belonging to and operated by the defendant collided. The case was taken up Monday morning and went to the jury yesterday morning about 10 o'clock. Both sides were ably represented by counsel and every point was hotly contested. It is likely that an appeal will be taken.

Quite a number of cases were continued and several were set for trial next week. The case of M. W. Evans vs. J. E. Dellinger was non-suited. Judgment for the plaintiff was rendered in the cases of Jones Grocery Company vs. Dr. W. J. McAnnally and R. A. Gray, et al. vs. R. L. Vaughn & Co. Court adjourned shortly after 4 o'clock until this morning at 9:30, there being no cases ready for trial yesterday afternoon.

BIG MEETING OF THE MERCHANTS TONIGHT.

Joint Business and Social Session To Be Held At Lindley Park.

The Merchants' Association will hold the joint business and social meeting tonight at Lindley Park. This promises to be the most interesting as well as enjoyable meeting of the association held in some months. The large car of the Public Service Company has been secured and all members, together with their wives or special lady friends, are asked to meet at the square at 8 o'clock, at which time the car will leave for the park.

Arriving here the members will proceed to the pavilion where the business meeting will be held. This will consist mainly of a number of short but timely talk on important subjects. Then Mr. John J. Phoenix will slice up a pile of watermelons and all will feast to their satisfaction on the choicest melons to be had. The affair will come to a close with a visit to the park show.

Every member of the association is urgently requested to be present tonight and to catch the special car.

To Asylum For Insane.

Deputy Sheriff W. J. Weatherly yesterday morning carried Lewis Hall, the crazy negro, to the asylum for insane at Goldsboro, the proper admission papers having been received. Hall was acting all right, but the officers thought best to take no chances and before the negro was placed on the train he was encased in a "straight jacket."

Wanted In Rowan.

Deputy Sheriff Kridler, of Salisbury, was here yesterday after Walter Johnson, colored, who is wanted in Rowan to answer for some of his crimes. Johnson was arrested at Pomona Wednesday afternoon and the Rowan authorities were notified. The prisoner was carried to Salisbury last night.

RALEIGH WOMAN ENDS HER LIFE

Wife of Engineer G. W. Steele Suicides.

Took Bi Chloride of Mercury and Died In Terrible Agony—Coroner Investigating Tardiness of Husband In Calling In Physician—Had Said She Was Going to Kill Herself—Crop of Lumber Bridge Farmer Makes Governor Proud of State.

Raleigh, Aug. 18.—Mrs. George W. Steele, wife of Engineer Steele, of the Seaboard Air Line, committed suicide early this morning by taking bi chloride of mercury. She is thought to have taken thirteen tablets of this deadly poison about 12:30 this morning and she died in terrible agony about four hours later. In the Steele home at the time were the husband and Mr. and Mrs. Harry E. Cole. They say Mrs. Steele was very despondent and when she went to her room soon after midnight declared her purpose to end her life. They did not believe she was serious or intended to act so speedily. An hour later when her effort at suicide was detected antidotes were administered. Mr. Steele says, as strenuously as possible. However, it was four o'clock before a physician was brought in, it being too late then to save her life. The coroner is investigating, especially the tardiness in calling a physician.

There is no explanation yet as to why the woman wished to die. She was treated several years here by Dr. A. W. Goodwin for Tuberculosis and later other physicians said this was not her trouble. Charges were preferred against Dr. Goodwin for mal practice before the Wake County Medical Society, the physician being suspended from affiliation in the meantime. Since then Dr. Goodwin has been reinstated in the society and damage suits for \$50,000 by Dr. Goodwin are pending against Dr. Joel Whitaker and Dr. A. W. Knox, who made the charges to the Medical society.

Governor Kitchen spent Wednesday at Lumber Bridge to deliver an address in connection with a Masonic picnic and was in the executive office here a few hours today on his way back to Scotland Neck where he is spending a while with his mother who is feared to be on her deathbed. He said today that he saw the finest crops around Lumber Bridge that he has seen in many a day. He was the guest of W. S. Cobb while there and was taken in an automobile by Mr. Cobb over his extensive plantation embracing nine hundred acres. He ascertained that Mr. Cobb has shipped this season 7,000 barrels of Irish potatoes, thirty car loads of cantaloupes, eighty car loads of watermelons. Furthermore, he is still shipping melons and is growing a crop of cotton on the land from which he dug the potatoes that will yield probably a bale to the acre. The Governor declares that such demonstrations of successful farming as this make him more than ever proud of his State.

Stole Buggy Harness.

Wednesday morning a negro boy stole a portion of a set of buggy harness from the stable of Dr. W. J. Meadows, all being taken except the bridle and traces. The harness were almost new. A farmer living near the city saw a negro boy trying to sell a set of harness that day on Asheboro street and was so struck with the low price the negro was asking that he mentioned the fact to a friend. In this way Dr. Meadows learned that a negro stole the harness, but as yet no description of the negro has been secured. It is probable that the negro sold the harness for an insignificant sum as the set was worth between \$25 and \$30.

Reception To Returned Tourists.

The congregation of the First Presbyterian church is cordially invited to attend a reception in the Smith Memorial building Saturday evening, Aug. 20, 8 to 10:30, to be given to the pastor, Rev. Melton Clark and Elder A. M. Seales, who have just returned from a trip abroad.

The mothers of the little Wax Dolls are requested to reserve their seats on the left hand side of the Opera House so that the babies may sit with them after the first intermission. No extra charge for reserved seats.

GREENSBORO IS STILL CLIMBING

Won From The Electricians Yesterday.

Contest Was Hard Fought and Exciting From Start To Finish—Houser and Clark the Opposing Slab Artists—Fine Catch by Rickard—How the Runs Were Made—Standing of The Clubs.

The real fight is on—the Champs to get out of the cellar, Spartansburg to pull Winston down, Anderson to hold second place, and Charlotte to put Anderson out of the second honors. The Spartans beat Winston yesterday, Gardin and Laval the two outfield left-handed twirlers being pitted against each other with the advantage resting with the Musicians. The Spartans won by a score of 2 to 0, Gardin allowing 5 hits and Laval 8.

At Greenville Buck Flowers and Brazille fought it out, both pitching superb ball the former allowing two hits and Brazille 4. The Hornets made 4 errors behind the "smiling one" and the total was Greenville 2, Charlotte 0. The Battle Here.

It was a sure enough battle royal that was pulled off at the Cone battlefield, the game being won and lost several times but finally when the shouting was over the result stood Greensboro 4, Anderson 3.

A miserably small crowd witnessed what was the cleanest and hardest fought game that has been played this season. Both teams were full of ginger and strained every point to win and there was never a let-up until Kelly popped out as the third out in the ninth.

Houser, who has never had a fair showing at home before, was on the slab for the Hicksmen and he delivered the goods. He was touched up for eight hits, but that mattered not for he steadied when critical moments came and when he came to the bat in the seventh his hit was a telling factor in the victory. He fanned eight men, his control was good and his curves were breaking nicely for him. Captain Beusse behind the bat even excelled himself in pegging to second—the Beusse-Hicks combination makes it a hard and difficult task for a runner to get past that second corner. The surprise of the game was the way the Champs pounded a left-hander. Clark, who has never before faced a critical audience at the local grounds, made his debut and the reception he received at the hands of the Champs was simply awful, ten clean hits in all—and he was a left-hander! His support was good, only one error behind him, and he can blame no one for the loss of the game except himself.

Corbett, the fast second sacker of the visitors, became very much annoyed at the "Umps" in the third inning and used language to him that sparked so the boss of the game had Manager Kelly to relieve Mr. Corbett until he cooled down and Any Roth butted into the game as catcher and Brannon went out to the second corner, which he held down for the rest of the game with credit.

The bright work that deserves the honorable mention was a catch by Rickard, a one handed stab for a hot one by J. McCarthy, a fast double play, Doak to Moran and sensational stop by Smith.

The scoring was done like this: First inning: Champs—Rickard walks, advances on Fuller's bunt and scores on Doak's single. Third inning, Anderson: One man down when Brannon singles, steals second and third. Clark fans. Wehrrell gets an infield hit and Brannon scores. Sixth inning, Champs: Doak walks, advances on Bentley's sacrifice and scores on Clapp's single. Seventh inning, Anderson: Roth singles, advances on A. McCarthy's sacrifice and scores on Kelly's two-base hit. J. McCarthy doubles and Kelly scores from second. Seventh inning, Champs: Beusse is safe on error of Smith at third, goes to second on Houser's single. Beusse scores on Fuller's hit. Houser out trying to steal. Fuller steals second and scores on Doak's hit, winning the game.

Winston-Salem, Aug. 18.—Spartanburg defeated Winston-Salem rather easily today by the score of 2 to 0. Laval was batted rather freely at times by the visitors, while the locals couldn't find Gardin. The first run came as the result of a hit batsman, a sacrifice hit and a double by Wood. The second one came as the result of a series of singles following an error by Templin, the first he has made on the home grounds since July 18.

"Rube" Benton, the North Carolina boy who was purchased from the South Atlantic league by the Cincinnati Nationals, recently became home-sick and deserted his club. This week's Sporting News says:

"Rube Benton has rejoined the Reds after taking 'French leave' for about a week. He was down in that dear North Carolina looking after the crops on his farm, which consists entirely of hoop poles and huckleberries. He says that he had a nice little vacation and enjoyed the feel of the swamps under his hoofs after his experience with the cobble-stone pavements in Cincy. Griff only fined him about eight days' pay. He was found by an emissary of the Kinston Literary Club and shipped to New York by fast freight in charge of one of the club waiters, otherwise he would never have found his way to the Brooklyn grounds where the Reds were playing."

Benton is from Kinston, the same town that George Suggs, another of the Red's twirlers hails from. The price, \$7,500, paid by the Cincinnati Reds to the South Atlantic league club for Benton was the record price for a player from that class league. Both of the Tar Heel youngsters are more than making good.

Shifted Freight On Sunday.

In Municipal Court yesterday morning the Southern Railway Company was arraigned on the charge of shifting a car of shingles on Sunday, this being in violation of the Bain Sunday ordinance. Judgment was suspended on payment of costs. The ordinance prohibits the shifting of cars, except those containing perishable freight and passenger coaches on Sunday.

Hobo Cuts Conductor.

Conductor Frank Ramsey, of a help train, was cut by a hobo last night just beyond Danville. Conductor Ramsey was assisting No. 29 to get into Danville when he was attacked by the hobo. The hobo has not been caught but a description has been sent officers along the line. The wound received by Mr. Ramsey was not serious.

DEMAND MADE FOR DAMAGES

Raleigh Asked to Pay Fire Losses.

In Conflagration Some Days Ago—City Authorities Charged With Neglecting Duty by Allowing Fire Alarm To Get Out of Order and by Not Having Proper Water Pressure—Crops Are Looking Fine Throughout State.

Raleigh, Aug. 18.—Charging that the Raleigh city authorities failed in their administrative duties in allowing the city fire alarm system to be defective for sixteen months and that if the water pressure by the Wake Water Co. was deficient and contributed to the destructiveness of the fire August 8 to burn two residences the city authorities were responsible for this because they failed to properly test the pressure from time to time and see that the proper pressure was available at all times, Robert Strong, as counsel for certain parties who lost by the fire, made today formal demand on the city for damages for the losses sustained by his clients. The position taken is that the city is liable for failure of officers to perform ministerial duties and that the proper care of the alarm system and inspection of the water service were among those duties that were not performed with reasonable care. The alarm for the fire in question rang the wrong numbers, confusing the fire department's response and when at last they reached the fire the water pressure delayed effective fire fighting.

The Coleridge Telephone Co., capital \$10,000, and the Coleridge Manufacturing Co., capital \$7,500, were chartered today, the manufacturing company being for making chairs and other furniture.

After traveling throughout the central and western sections of the state as director of the farmers institute work Capt. T. B. Parker declares that crops of all kinds are improving very rapidly now with almost assured prospects for by far the largest corn yields ever obtained in this state. He has just closed the five series of institutes held the past two months at 125 points. He says there was never so much interest in the institute work, on the part of the farmers and their wives and daughters and that the constant improvement in farm life conditions and farming methods is very marked. The institute workers are resting on their oars now waiting for the State Farmers' convention to meet in the A. & M. College here August 30 to September 1. The outlook is for an attendance of several hundred farmers from all parts of the state.

M. P. Picnic Today.

On account of the unfavorable weather conditions the picnic of the Sunday school of Grace Methodist Protestant church at Lindley Park was not given yesterday, but it will be given today. At 9:20 o'clock a large open car, marked "Special," will leave South Greensboro at the end of the Asheboro street line for the picnic at Lindley Park. Friends not boarding the car below Washington street crossing should be at the crossing at 9:25. An additional car will be used from the square if necessary.

At 5:00 p. m. car will leave Lindley Park for Piedmont and return to the Square, arriving at 6:20. T. J. Ogburn, pastor; T. A. Hunter, S. S. Supt.

Happy, Happy, Use TIZ

A Marvel For Sore Feet. Acts Right Off.

Sore Feet? Never After Using TIZ—

Good-bye sore feet, aching feet, swollen feet, sweaty feet, smelling feet, tired feet.

Good-bye corns, callouses and bunions and raw spots.

You've never tried anything like TIZ before for your feet. It is different from anything ever before sold.

It acts at once and makes the feet feel remarkably fresh and sore-proof.

TIZ is not a powder. Powders and other foot remedies clog up the pores. TIZ draws out all poisonous exudations which bring on soreness of the feet, and is the only remedy that does. TIZ cleans out every pore and glorifies the feet—your feet.

You'll never limp again or draw up your face in pain, and you'll forget about your corns, bunions and callouses. You'll feel like a new person.

If you don't find all this true after trying a box of TIZ, you can get your money right back.

TIZ is for sale at all druggists at 25 cents per box, or it will be sent you direct if you wish from Walter Luther Dodge & Co., Dodge Bldg., Chicago, Ill.

DEATHWATCH BEETLES.

Their Tapping Stands For Courtship and Not For Warning.

Much mental anguish could have been saved to past generations and some not so very far past if people had known that the mysterious tapping of the "deathwatch" stood for courtship and not death. A writer in the Scientific American explains that the various species of the beetle anobium and their bigger relatives of the genus xestobium not only attack furniture, but so completely riddle the whole woodwork of old houses by their borings as to render the structures unsafe. Indeed, a beam that has been tenanted by these insects for a number of years is little better than an outer shell containing a mass of wood dust. The xestobium is the common deathwatch, while the anobium also is in the habit of making a tapping sound.

The nocturnal tappings of these insects, distinctly audible in a room where there is an otherwise complete absence of noise, has for many centuries been regarded by the superstitious as a warning of the approach of death. This uncanny interpretation of a mysterious sound is scarcely surprising when it is remembered that only in recent years have naturalists discovered its true cause.

The little beetle has been found in some secluded spot, jerking its hard head at regular intervals upon the surface of the wood beneath it. So far as can be told, its tappings constitute a kind of courtship ritual. Obviously they have no connection with the latter end of mankind.

A RAIN OF FIRE.

The Great Meteoric Shower That Scared Folks In 1833.

In Scharf's "Chronicles of Baltimore" there is a vivid description of the starry hallstorm, the fiery meteoric shower, of 1833, and old files of newspapers are made luminous at that date by the impressions of editors and contributors. One writer said it was the grandest and most charming sight ever presented to the vision of man. Awakened from sleep, he sprang to the window, thinking the house was on fire, but when he looked out he beheld stars, or fiery bodies, descending like "torrents." The shed "in the adjoining yard to my own," he wrote, "was covered with stars, as I supposed, during the whole time." Professor Olmstead of Yale college thought that the exhibition was the finest display of celestial fireworks that had been witnessed since the creation of the world, although he, too, while knowing its character, was sufficiently imbued with the theological spirit of the time to believe that it was a solemn portent that carried a divine warning.

One editor whose comment upon this phenomenon was probably more quoted than any other he ever made said: "We pronounce the raining fire which we saw on Wednesday morning an awful type, a forerunner, a merciful sign, of that great and dreadful day which the inhabitants of the earth will witness when the sixth seal will be opened. Many things occurring in the earth tend to convince us that we are now in the latter days."

Strangely enough, a groundless rumor seems to be the one that covers the most ground.

Life on Panama Canal has had one frightful drawback—malaria trouble—that has brought suffering and death to thousands. The germs cause chills, fever and ague, biliousness, jaundice, lassitude, weakness and general debility. But Electric Bitters never fails to destroy them and cure malaria troubles. Gray Hair Restored

My hair was getting quite gray and falling out rapidly and I was troubled with a terrible itching of the scalp. My head was full of dandruff, which fell upon my clothes and kept me continually brushing it off. While on a visit to Rochester I heard of your Sage and Sulphur for the hair. I got a bottle and used it. A few applications relieved the itching, my hair stopped falling out and gradually came back to its natural color. It is now a nice dark brown color, soft, glossy and pliable. Several of my friends want to use it, and I want to know what you will charge me for six bottles of it.

Grew Hair on a Bald Head

For two or three years my hair had been falling out and getting quite thin until the top of my head was entirely bald. About four months ago I commenced using Sage and Sulphur. The first bottle seemed to do some good and I kept using it regularly until now I have used four bottles. The whole top of my head is fairly covered and keeps coming in thicker. I shall keep on using it a while longer, as I notice a constant improvement.

A Sketch

By ETHAN ARBUCKLE

Copyright, 1910, by American Press Association.

I was sketching in the country. With my portable easel before me, seated on my three legged stool, I was doing a bit of landscape when a girl came by who surely did not appear rural. Her dress was ragged, her hat, a straw, darkened by the weather and having a tawdry ornament, while over her shoulders she wore a faded shawl. Had I not, with the habit of an artist, kept an eye open for models I might not have noticed a certain kind of beauty under these tattered garments. The girl took off her hat and displayed a wealth of hair, with just enough red in it to make it gold. The day was hot, and she threw back her shawl. Then I noticed that her bodice was cut low and revealed a superb neck set on a pair of well rounded shoulders.

"Why do you wear that kind of dress at this time of day?" I asked. "Because I haven't any other." "Do you live about here?" "No. I don't live anywhere. I'm tramping."

Then she cried. Not a slip in grammar, not an unrefined expression, escaped her. She had evidently seen better days. Indeed, she might have lived in luxury.

"If you will let me make a sketch of you," I said, "I will pay you well for doing so."

"What will you do with the sketch? Will everybody see it? I wouldn't wish them to see it at home."

"I will put it in my portfolio. I don't think any one who knows you will ever see it."

She consented, and I made the sketch, putting in the colors exactly as they were. I gave her a good price for the pose, which she clutched eagerly. I believe she was hungry. While I worked I was talking to her with a view to learning something about her. But she would tell me nothing willingly, and I was unable to induce her to give me any information by artifice. At last I was obliged to let her go her way.

But her picture—it was a fine representation of "From Affluence to Poverty"—remained with me, gazing out at me from the sad eyes, and I found myself constantly taking it out from among my other sketches and looking at it. Indeed, I found myself unfit for work, so complete a hold had it taken upon me. I slept that night at a farmhouse and woke in the night depressed by a feeling that the girl was wandering about with no home, no money, nothing to eat and obliged to wear anything she could get to cover her. What a selfish world! Why had I not taken her into my heart and provided for her wants?

Then I remembered that there is a barrier which prevents young men from assisting young women. As to taking her into my heart, that I had done, though I did not realize what a foothold she had gained there.

One thing about her was patent. She was pure. No such beauty as hers need go in rags except through purity. It was this doubtless that prevented my banishing her from my mind and drew me toward her.

I have always had a habit of reading the personals in newspapers. I do so because I like to have my fancy started in weaving stories that the few advertised words indicate. One day I read the following:

Information wanted of Gladys Seymour, twenty years old. When last seen she wore a dark blue dress, out low neck; eyes dark brown; hair the same, with a tinge of red in it.

I saw the subject of my sketch described in this personal. I called immediately on the advertiser and found a lawyer. I showed him my sketch, and he showed me a photograph. They were identical save as to dress. That of the photograph was silk, that of the sketch rags. He told me that the girl had been driven from home by the cruelty of a stepmother. She had gone vowing never to return. The stepmother had died, and the girl's father, who was alone, was anxious to find his daughter, but had little hope of doing so.

I determined to hunt for Gladys Seymour myself. Taking my sketch with me, I went to the place where I had made it, then started in the direction she had gone when she left me. I spent a day in discovering where she had slept that night. A farmer's wife had taken her in and given her a bed and a supper. Having learned the direction she had taken the next morning, I went on and tracked her in a direct line to a little town, where I lost her. But, showing my sketch and making inquiries, I traced her to a store, where she had been given work behind the counter. There I found her, though in a better costume than that in which I had met her.

I don't know which was more affected by the news I gave her, I at telling it or she at learning it. She went at once to her employer to say that she would like to go to her home, and he excused her from remaining. I furnished her with the means to get there—not as charity, but as a loan.

Gladys Seymour did not remain at home long with her father, for I stepped in and took her away from him. There was a bone of contention between me and my wife for a long while. She wished the sketch I had made of her when she was tramping destroyed. I loved it and wished to keep it. But the period was so painful to her that I finally consented to burn the picture.

Uncle Joe is powerful spry for an old man. He dodges every time they try to pitch him overboard.

"My dear Theodore" made "My dear Will" President and now they are at each other's throats. But such is politics.

A Chicago man was the first to take a passenger across the English channel in an aeroplane. You don't catch us Americans napping in any line of endeavor.

The regular Republican candidate for Governor of California failed to carry a single county. The Pacific coast as well as the Middle West is opposed to standpatism.

The reorganizers have already selected Mr. Duncan's successor as National Committeeman. As might have been expected, it is Thomas Settle. But Butler and Settle may fall out over this very thing.

The Mt. Airy Leader rejoices that the Republican State convention abolished the unit rule and says that rule killed off many leaders. We can't blame our Mt. Airy Republican contemporary for not wanting leaders killed off.

Insurgent Republicans gained over the stalwarts in California also. But let them gain all they may. The more they succeed the madder the standpaters will get and the wider will be the breach in the G. O. P. Which is water on the wheel for the Democracy.

We are not an admirer of "Slippery Jim" Sherman, but we are rather glad has the backbone to say that he won't withdraw as candidate against Roosevelt for the temporary chairmanship of the New York State Republican convention.

Lieutenant Governor J. Taylor Ellyson, of Virginia, visited Danville recently and the Register in an article about him said that everybody liked him or at least didn't dislike him. We feel pretty sure that Mr. Ellyson was deserving of something better than that. The man whom nobody dislikes is necessarily a colorless individual and we feel reasonably sure that Mr. Ellyson is something more than that.

Chairman Morehead saw the President at Beverly Wednesday, but it is expressly stated in the press dispatches that he was not let into the "big" political conference that Mr. Taft and other politicians held on that day. The President no doubt has designs on North Carolina, as has been guessed in many newspapers, but the somewhat fortuitous circumstances attending his reception of the new Republican State chairman indicate that his designs on the State are not very serious.

Will the world one of these days come to the use of a universal language? If it does, that language is more apt to be English than Esperanto. The Philadelphia Record says:

Esperantists are chatting away like anything in Washington, but French and German patriots are protesting at the number of English words that are creeping into common use in their languages; at all the Continental hotels and places of business more and more English is spoken; and in Asia and Africa it is becoming common for natives unable to converse with each other in indigenous languages to get along fairly well by talking English. The universal language is making its way to the front without the help of inventors and conventions.

The greatest world power is Great Britain. The next is the United States. Both nations speak the same language. That the language which these great

and dominant nations employ should surely, if never so slowly, be impressed upon the peoples of other countries feeling on occasion for words of universal use does not seem at all impossible or even improbable. Invention after invention have been made bringing every part of the world closer to every other part. It would be only natural for this same thing to be true in respect to the means of communicating thought. And as individual languages have been formed a little at a time and all unconsciously, so it will likely happen that the world will wake up some time to find that it has without conscious effort or intention fallen in the habit of relying on one great language to express its thoughts.

A HAPPY BIRTHDAY.

Miss Jennett A. Knight of Guilford College Eighty Years Old.

Prepared for The Telegram.
On Wednesday afternoon, Aug. 17, a party of people from Greensboro boarded the 2:20 o'clock train for Guilford College to attend the 80th birthday of Miss Jennett A. Knight. There were twenty-four persons from Greensboro who attended as follows: Mr. and Mrs. R. G. Hiatt and six children, Mrs. J. I. Fountain and little daughter, Mrs. S. G. Blalock and five children, Garland Lamb, Miss Pearl Trotter, Mrs. Dr. Hall, Mr. John Knight, Mr. and Mrs. Will Jennings and daughter and Rev. Shuford Peeler. Capt. Ed Holden, the conductor, very kindly stopped the train for the party to get off just in front of Miss Knight's home about 1-4 of a mile beyond the Guilford station.

There at the home the Greensboro party was joined by about 75 or 80 other friends and relatives. This jolly company of more than 100 people spent a very pleasant afternoon together. Among the number were preachers, doctors, school teachers, business men and farmers.

Many came with large baskets heavily laden with good things to satisfy a hungry man and at 4:30 a sumptuous supper was served in the grove and there was much fried chicken and cake and pie in evidence.

Miss Knight taught school for 33 years in Guilford and Rockingham counties and was a very successful teacher. Among her former pupils are ministers, teachers, lawyers and farmers. From a large family of brothers and sisters only three are still living. A brother, James Knight, of Kansas; a sister, Mrs. Annie Williams, of Richmond, Ind., and "Aunt Nett" as she is commonly called, of Guilford College. She lives alone with a colored girl, whom she reared from childhood. "Aunt Nett" is known for her Christian graces, her beautiful character and everybody loves her. She said before the company in a little speech "I can't be here much longer but I want to meet you all in Heaven."

After the supper religious services were conducted by Rev. W. L. Dawson and Rev. Shuford Peeler. Each of the ministers made short talks, prayer was offered by Rev. Mr. Dawson, and the company engaged in singing "Rock of Ages" and "God Be With You 'Till We Meet Again."

A photograph was made of the entire group. Also one of Miss Knight and her close relatives which showed four generations present. Anyone wishing one of these pictures may secure same from Mr. R. G. Hiatt, Greensboro.

The writer wishes for Miss Knight many more happy birthdays.

MUCH BUILDING BEING DONE IN GREENSBORO.

Considerable building is being done in Greensboro this summer, according to a well known contractor. While to the average citizen it does not appear that much building is being done this is because the city covers such large territory that it is almost impossible to fully comprehend the extent of building operations. It is noticeable that within the past year nearly half the store fronts on South Elm have been remodeled. Two building permits were issued yesterday. One was to Mrs. Mary Lampman for a \$2,500 residence on Odell Place and the other to Mrs. Minnie Reinhart to remodel the residence on North Elm recently damaged by fire. The estimated cost is \$2,300. Mr. J. T. B. Shaw has the contract to repair the residence.

GUILFORD COUNTY SUNDAY SCHOOL CONVENTION TODAY.

The midsummer convention of the Guilford County Sunday School Association will be held today at Jamestown, the sessions to be held in the Methodist church. A large number of Sunday school workers of Greensboro, representing the several Sunday schools, will go down to attend the sessions. A number of prominent workers are on the program for addresses and the convention promises to be entertaining as well as instructive. Those going by rail will catch No. 11 at 6:30 or No. 21 at noon. Returning delegates can leave at 6 p. m.

Nothing Can Be Said Against Stedman.

Roxboro Courier.
In all of the mud-slinging this year it has been a great pleasure to note that not one word has been said concerning the honesty integrity and ability of our candidate for Congress, Major Stedman. Not even our Republican friends have dared to attempt to bring any kind of a charge, and it is well, for he is a gentleman of the old school, a man we are all proud of and lament the fact that there are so few like him. The Fifth District, North Carolina and the South will be honored by Major Stedman occupying a seat in the Congressional Hall, and nothing save death can prevent it.

Notice To Reformed Sunday School.

All the scholars of the First Reformed Sunday school are urgently requested to be present Sunday at 10 o'clock to make arrangements for the picnic next week. Parents and friends invited also.

Have you corns or callous? If so we can offer you instant relief.

We have just received from New York a shipment of Anticors the Anticor sheds corns and callous off the feet like magic. It don't cut the skin, it does it's work in a minute, and keeps corns away forever. Feet don't need treating, no preparation, nothing necessary except to move the Anticor over the corns or callous and in a few seconds it's gone. A child can operate it. It doesn't matter whether the hand is steady or unsteady for the Anticor won't cut anything except the corn or callous. Come in today and get an Anticor. It only costs \$1.00. After you've used it you can have your money back again if you ask for it. No argument as to why or wherefore, just ask for the money and get it if you want it.

Thousands of people say the Anticor is the greatest blessing to mankind that has ever been put on the market. It is going to relieve the pain of a nation, and if you have corns or callous it will relieve yours.

Don't fail to come in and get one today.

IN MEMORIAM.

Again death has knocked at the door of our circle, and saddened every heart in so quickly calling away our beloved member, Mrs. B. H. Merrimon.

Throughout our membership this loss is felt, and sorrow shrouds the lovely home where she was content to yield up her life in service to husband and children. What bitter rending of family ties! From her childhood she had lived among us. We watched her as she lived the life of a cherished and happy life—wearing the full rich honors of the crown of womanhood—a sacrificing mother.

While life seemed yet so full of joy and promise she fell asleep. The falling shadows can never be lifted from loving hearts. Who loved the beautiful more than she? Whose voice has more often touched our hearts in days gone by when she sang in old West Market church? So in love with life and music was she that one could not help but feel the words of her song. Her musical voice added to the sum of human joy; now it swells the chorus of the choir invisible. Those to whom she gave alms and scattered sunshine by her smile and her touch will feel lonely; the voyage will seem harder.

May those who sit in sorrow be given peace, comfort and strength in this hour of their bereavement.

The Nerve!

Life.

Magnate—By Jove! That boy Archie has actually taken one of my yachts and gone off to Bar Harbor with it.

Second Magnate—You don't say! Why, he has the nerve of a United States President.

Would you say that a man was too clever by half when his better half has all the cleverness?

THE AMERICAN ACCENT.

An English Writer Frees His Mind on the Subject.

"The American accent," writes a contemporary correspondent, "is far less irritating than the cockney dialect, and it would be well to be if the former, which is at least musical, could be substituted for the cacophonous patois of our east end."

As a matter of fact, we think that the cockney accent has a certain number of real admirers, but what we wish to call to our readers' minds particularly is that America has its cockney, so to speak, precisely as we have. People in Kentucky have a rather burrish way of speaking, and they loathe and detest the fruity twang which overhelms New England. The westerner, again, is responsible for the dialect which was supplied on the English boards by stage Yankees.

Whether you acquire the American accent or not depends on the length of time you remain in America. Englishmen who stay in New York for protracted periods preserve their native cadences intact. It is the man who pays a flying visit to the United States who comes back and always says "nop" for "no" and "yep" for "yes."

Once we met a man who had returned from a week's stay in Boston. He said he had heard it was easy to acquire the twang and finally exclaimed, "Waal, stranger, I guess it may be dead easy for some, but not for Blank Z. Asterisk," meaning himself. "Now, what's your opinion? Am I right?"—London Globe.

THE VORACIOUS TUNAS.

What Happens When They Meet a School of Flying Fish.

One time at San Clemente we sighted a feeding school of tunas, an exhilarating sight. A flying fish weighing a pound and a half or more would start from the water and soar an extraordinary distance, nearly out of sight, but every inch of that flight I knew was covered by a big tuna keeping his place just beneath the flier and ready to seize it the moment it fell into the water. This rarely failed. The moment the fish began to drop the tuna would spring at it like a tiger, turning and tossing the spume into the air with a splendid and electrifying rush, a maneuver that was repeated all over the blue channel.

The sensational charge meant that a school of tunas had discovered a school of its natural prey, flying fishes. At once the lust for blood and food was on, and carnage was the result.

I have observed some curious scenes at sea, but never have I seen fear so forcibly expressed as by a school of flying fishes, exhausted and at the mercy of the voracious tunas. I have had them gather about my boat and cling to its keel as closely as they could, while the air was full of leaping tunas and soaring fish. At such times when a school of sardines is rounded up the fishes are so terrified that men have rowed up to them and scooped them in by the pailful.—Outing.

Curious Optical Properties.

Asterism is the beautiful name given to a curious optical property of certain minerals. They show a star shaped figure where light is reflected from them or transmitted through them. This is seen in the star stone, which is a sort of sapphire, and in the star ruby. There is asterism also in mica. The photograph of a lamp flame taken through a plate of mica shows a six rayed star, with six fainter radiations between. Outwardly star mica resembles the ordinary form and shows the same phenomena under polarized light. When examined under the microscope, however, the star mica is found to contain fine needles of another mineral. And these are regularly arranged at angles of 120 degrees. To these needles is due the star seen by transmitted light.—Chicago Tribune.

The Butcher Bird's Larder.

It is possible that the butcher bird's "curious and cruel habit" of impaling various creatures upon hedge thorn is his way of supporting his wife during her period of seclusion. Of many species the female is fed by the male on the nest, but the butcher bird's prey consists often of creatures which are too large to be eaten at a mouthful. Even if the male could always drag these carcasses to the nest it is obvious that the female could not eat them there, so the "larder" may have been hit upon as a happy device to get over the difficulty, the female fitting thither to help herself whenever she is hungry.—Country Life.

FIFTEEN INJURED.

When Train, No. 30, Was Wrecked Wednesday Night—None Seriously Hurt.

Columbia, S. C., Aug. 18.—Train No. 30, on the Southern railway, running between Savannah and Washington, was derailed and overturned last night, at 9:27 o'clock, one mile below Rockton, a small station three miles from Winnsboro. About 15 passengers were injured but none seriously and no one was killed. The engine, although derailed, remained upright, the tender, mail, express combination and the passenger coaches were overturned. The three Pullmans remained upright, but one of them was derailed.

The train was bowling along 40 miles an hour on a straight stretch of track. Suddenly the engineer, Robert McDougal, felt his tender leave the track. He put on the emergency brake, but before he could stop his train the tender, the mail car, the express car, the combination and a passenger coach had left the rails and, breaking away from the rest of the train, had overturned and rolled away from the track. One of the three Pullmans was derailed, but did not upset.

J. W. Blanton, the conductor, sent the news to Winnsboro and soon about 300 people had reached the scene. Once there, the spectators turned their attention to caring for the injured. It is believed that spreading rails or a broken truck caused the accident.

News of the derailment reached Columbia last night about 10:30 o'clock by way of Charlotte and Spartanburg. The telegraph line between Columbia and Rockton was knocked down when the cars overturned and the dispatches bringing the news of the accident had to be sent in this roundabout way. Consequently, they were slow in coming in.

As soon as the news of the derailment was received in Columbia, a relief train was made up and rushed to the scene of the wreck. Dr. Lester, the Southern railway's assistant surgeon, with several others, went to the aid of the injured. Dr. Buchanan of Winnsboro also hurried to the scene. The relief train was followed by a wrecking train at 1:30 a. m. T. B. Lumpkin, secretary of the railroad commission, took a special to Rockton. He was accompanied by S. H. McLean, passenger agent of the Southern.

The track between Charlotte and Columbia was blocked for several hours, the rails being torn up. On account of the wreck, Southern train No. 29 was detained by way of Spartanburg. The passengers on the derailed train No. 30 were taken to Charlotte on a special train.

That no lives were lost on account of the derailment seems almost miraculous. The train was crowded with passengers.

The members of the railroad commission will make an examination into the cause of the accident.

Mr. Blanton, the conductor, also was slightly injured.

Winners of the Prizes Offered by W. G. Balsley, President of the Gate City Building and Loan Association.

Greensboro, N. C., May 23, 1910.
Mr. T. J. Murphy, Sec. & Treas.,
Greensboro, N. C.

Dear Sir: I am in receipt of check for \$1,000.00, amount of my first series stock in the Gate City Building & Loan Association which matured recently.

In this connection I would state that I consider Building and Loan stock an excellent medium for saving money. The small weekly or monthly payments makes it very convenient and attractive for young men of moderate means. I figure that I received about 6 per cent interest for the average time on money paid on stock, which in consideration of the small weekly payments, I think a very good investment.

The loan feature is also good for any one wishing to borrow, as the interest is divided into small weekly payments and is hardly missed.

I certainly would recommend buying Building and Loan stock and borrowing

money on the same to pay for a home, in preference to paying rents.
Yours very truly,
T. A. GLASCOCK.

May 30, 1910.

Mr. T. J. Murphy, Sec. & Treas. B. & L. Association, City:

Dear Mr. Murphy—"Easy money" is an expression we often hear and seldom realize—the nearest I ever came to "easy money" was when I received your check for \$500, being the maturity of 5 shares of stock in the first series in the Gate City B. & L. Association. I scarcely missed the small weekly payments, hence it was almost like "picking it up in the road." Best wishes for your continued success.

Yours truly,
J. H. WHEELER.

Greensboro, N. C., June 3, 1910.

Mr. T. J. Murphy, Secy. & Treas., Gate City Building & Loan Association, Greensboro, N. C.

Dear Sir: I wish to extend my hearty congratulations upon the successful termination of the first series of your stock. It has been just six and a half years since I subscribed for five shares, and the small weekly payments of \$1.25, or about \$5.00 monthly, have not been missed. Now I have your check for the handsome sum of \$500.00 and I count myself just that much ahead.

This has proved such a profitable investment, as well as such an easy and safe way to save money, that I have concluded to double my investment in your new series, and I take pleasure in handing you my subscription for ten shares.

Wishing you and your company continued success, I am,
Very truly yours,
R. G. VAUGHN.

Mr. T. J. Murphy, Sec-Treas. Gate City Building & Loan, City:

My Dear Sir—I beg leave to acknowledge receipt of your check for \$502.50,

being in full payment of my stock certificate in the Gate City Building and Loan Association for five shares stock.

It gives me great pleasure to acknowledge the receipt of this, as I regard it as practically a saving of what in all probability would have been lost. The small monthly investment has not been burdensome; its returns have been profitable and its results gratifying. It has taught some lessons of economy that possibly I would not have learned but for the stated periods of payment. It has rendered a public benefit, in that it has provided means whereby citizens could own their home at the cost of the rent, they were paying. It has been a social impetus, in that it has caused men to pass from the home renting class to that of a home owning class. It has been an economical benefit in that it has provided labor with employment and capital a lucrative investment. It has been a stimulator of business ever since its inception and a rejuvenator of business by maturing at a time when

there was needed cash to keep the wheels of enterprise lubricated. In view of these facts it seems to me the duty of every business man and well wisher in the community to invest in this enterprise in order that he may be helping others make a profitable return to himself. I shall, therefore, double my stock in your new series just starting, believing it to be the cheapest and best insurance, the safest and most profitable investment that is offered both to the borrower and the lender.

Yours very truly,

CHAS. H. IRELAND.
Greensboro, N. C., May 28, 1910.

Mr. Thomas J. Murphy, Secretary and Treasurer Gate City Building & Loan Association, N. C.

Dear Sir—As the first subscriber to the stock of your association may I say a word commendatory of the value of building and loan stock to the average man.

The saving influence in our civiliza-

tion is the home. Properly constituted the home must be housed within four walls that a man may call his very own. The average man works for a salary, and it is exceedingly hard for him to keep any surplus money on hand. In fact, it is well nigh impossible. However, by paying a small sum each week, he can, through the medium of your association, accumulate a sufficient amount to build a home for himself and for his family. To me this is the great advantage of your association.

If I remember right, the Gate City Building and Loan Association was organized about six and a half years ago, is now in its fourteenth series, and has issued about two thousand shares of stock. To all who would like to build a home on small weekly payments or with rent money, I would advise them to take stock in the Gate City Building and Loan Association.

Yours very truly,
J. M. SIMPSON.

Out of Tune.
A piano tuner employed by a city firm was sent to a certain suburb to tune a piano. He found the instrument in good condition and not in the least need of attention. A few days later the firm received a letter from the owner of the piano, a lady of musical intention, saying that the piano had not been properly tuned. It was no better than before. After receiving a reprimand from his employer the hapless tuner made another trip to the suburbs and again tested every note only to find, as before, no fault with the instrument. This time he told the lady so.

"Yes," she said, "it does seem all right, doesn't it, when you play on it, but as soon as I begin to sing it gets all out of tune again."

He Ate His Own Words.
Not long ago the punishment for libel in Russia was the requirement that the libeler literally eat his own words. A man who published a small volume reflecting on the unlimited power of the sovereign was seized, tried in a summary way and condemned to consume the objectionable words. In one of the public streets the book was severed from its binding, the margins cut off, the leaves rolled up one by one and fed to the unfortunate author. A surgeon was in attendance to pronounce upon the number possible to give without endangering his life, but he is reported to have set the limit at something like 200.

Sounded Queer.
"All right behind there?" called the conductor from the front of the car. "Hold on!" cried a shrill voice. "Wait till I get my clothes on!"
The passengers craned their necks expectantly. A small boy was struggling to get a basket of laundry aboard.

Of course, marriage improves a man. If you don't believe it ask his wife.

Staggers Skeptics.
That a clean, nice, fragrant compound like Bucklen's Arnica Salve will instantly relieve a bad burn, cut, scald, wound or piles, staggers skeptics. But great cures prove its a wonderful healer of the worst sores, ulcers, boils, felons, eczema, skin eruptions, as also chapped hands, sprains and corns. Try it. 25c. at Fariss-Klutz Drug Co.

Too many of us never put off till tomorrow the trouble we can borrow today.

They Have a Definite Purpose.
Foley's Kidney Pills give quick relief in cases of kidney and bladder ailments. Mrs. Rose Glaser, Terre Haute, Ind., tells the result in her case. "After suffering for many years from a serious case of kidney trouble and spending much money for so called cures, I found Foley Kidney Pills the only medicine that gave me a permanent cure. I am again able to be up and attend to my work. I shall never hesitate to recommend them." Holton Drug Co.

Practice and Preaching.
When the late Bishop Hare was presiding over a Methodist Episcopal church in New York city a large reception was given in his honor to which a brother of his, a lawyer, who closely resembled the bishop, was invited.
During the evening a member of the conference who had never met the bishop's brother approached him and, shaking him warmly by the hand, said:
"Good evening, Bishop Hare. I greatly enjoyed the sermon you gave us today. It is just what this church needs."
"You are mistaken in the person," said the brother, smiling, as he pointed to the bishop on the opposite side of the room. "That is the man who preaches. I practice."

A Long Job.
"Where have you been for so long?" asked the head man of the menagerie. "Been watching one of the animals clear his throat, sir," replied the attendant.
"But does it take half an hour for an animal to clear its throat?"
"Yes, sir: it was the giraffe, sir."—Yonkers Statesman.

A Thing of Beauty.

Delights of the Seaside Beautifully Pictured by the Atlantic Hotel in an elegant Announcement.

As lovely an announcement as any ever issued by a hotel in the South is that just published by the Atlantic Hotel, of Morehead City, in a beautiful circular of twelve pages, attractive and inviting, a thing of real art. The season opens June first. All persons desiring a copy of the announcement may secure it by addressing a card to Frank P. Morton, manager, Atlantic Hotel, Morehead City, N. C. It is splendidly illustrated and the pleasures it recites and pictures make the wish to go to the seashore irresistible.

It is stated, the Summer season of 1910, will mark a new era in the history of the Atlantic Hotel—a number of improvements have been made, new granolithic and board walks laid, new piazza built, and tennis courts added. The ball room which is of enormous proportions, has been beautifully decorated, and many other features added for the comfort of its guests.

Morehead City is justly famed for the excellent fishing in the matchless waters that are found within the confines of this endless expanse of pleasure grounds, where myriads of the "Finny tribe," disport themselves.

The Atlantic Hotel is preparing to entertain this season the largest crowd in its history.

The Best Hour of Life

is when you do some great deed or discover some wonderful fact. This hour came to J. R. Pitt, of Rocky Mt., N. C. when he was suffering intensely, as he says, "from the worst cold I ever had, I then proved to my great satisfaction, what a wonderful Cold and Cough cure Dr. King's New Discovery is. For, after taking one bottle, I was entirely cured. You can't say anything too good of a medicine like that." Its the surest and best remedy for diseased lungs, Hemorrhages, LaGrippe, Asthma, Hay Fever—any Throat or Lung Trouble. 50c, \$1.00. Trial bottle free. Guaranteed by Fariss-Klutz Drug Co.

A bridge disaster—Losing eight straight rubbers.

Struck a Rich Mine.

S. W. Bends, of Coal City, Ala., says he struck a perfect mine of health in Dr. King's New Life Pills for they cured him of Liver and Kidney Trouble after 12 years of suffering. They are the best pills on earth for Constipation, Malaria, Headache, Dyspepsia, Debility. 25c at Fariss-Klutz Drug Co.

When marriage is a failure it is generally due to lack of capital.

Acute or Chronic—Which?

No matter if your kidney trouble is acute or chronic Foley's Remedy will reach your case. Mr. Claude Brown, Reynoldsville, Ill., writes us that he suffered many months with kidney complaint which baffled all treatment. At last he tried Foley's Kidney Remedy and a few large bottles effected a complete cure. He says: "It has been of inestimable value to me." Holton Drug Co.

Little Willie—"Oh, Uncle George, did you bring your horn?" Uncle George—"My horn? Why, I have no horn." Little Willie—"Then I wonder what papa meant when he said you were off on a toot last week."

Bad Breath

"For months I had great trouble with my stomach and used all kinds of medicines. My tongue has been actually as green as grass, my breath having a bad odor. Two weeks ago a friend recommended Cascarets and after using them I can willingly and cheerfully say that they have entirely cured me. I therefore let you know that I shall recommend them to any one suffering from such troubles."—Chas. H. Halpern, 114 E. 7th St., New York, N. Y.

Romeo Not Taken Seriously.

Juliet was only fifteen years old, but she thought she was quite grown up. One evening, says Mrs. R. A. Pryor in "My Day," she was receiving on the moonlit veranda a young man caller. He, too, it seemed, considered himself grown up. The anxious youth was moved to seize the propitious hour and declare himself. Juliet wished to answer correctly and dismiss him without wounding him.

She assured him mamma would never consent.

A voice from within—they were sitting beneath her mother's window—settled the matter:

"Accept the young man, Juliet, if you want to. I've not the least objection. And let him run along home now. Be sure to bolt the door when you come in."

Evidently the mother had small respect for boy lovers and wished to go to sleep.

A Prince Edward Island Legend.

There is a delightful legend among the people of Point Prim to the effect that when the English attacked the French fort at that place a chain ball from one of the attacking vessels cut the steeple from the old church located on the very point. In falling it toppled over the promontory and carried the bell which it contained into the sea. Dwellers along the point affirm that from time to time the sound of that bell comes over the waters at eventide and that its phantom tone is ever a warning of a fierce storm or some imminent danger to those who make their living by the spoils of the ocean.

An Office Engagement.

One of Washington's glided young men came rapidly down the steps of his house half an hour after noon the other day.

"What's the rush?" asked a friend. "Oh, I've got to hurry down to the office or I won't get there in time to go out for lunch."—Saturday Evening Post.

Her Excuse.

Her Horrified Mother—Maude, I should like to know why you allowed that presumptuous fellow to kiss you. The Daughter—1-1-1 thought, mother, no one was looking.

Frank Stockton and Poetry.

Frank Stockton never could write a successful poem. In this connection the novelist frequently told a good story on himself. In his youth in conjunction with his brother John he wrote many poems, with which he afflicted the editors of various Canadian periodicals. The effusions always came back. The editor of one magazine was an especial target of the Stocktons, but as none of their poems was ever accepted the brothers came to the conclusion that the editor had no conception of good poetry. To prove their belief they hunted up and dispatched to him an ode, little known, by Milton. Within two days they received a check and a letter of thanks. "I came to the conclusion that that editor knew poetry when he saw it after all," Mr. Stockton used to say, "and gave up trying to write it."

Heart Protectors.

"Curiosity is not my weak point," said the tailor. "Nevertheless I can't help wondering about some of my customers, especially those who order little metal disks padded into the left side of their coats and vests. Several of them do that—have been doing it for years. The natural inference is that they count on being shot at some time, and they take that precaution to protect the heart. But what I should really like to know is what they have done to make anybody want to shoot them. Apparently they are inoffensive, law abiding citizens, but there must have been a time when they were regular daredevils and laid the foundation of an enemy that they expect to wind up some day in a shooting scrap."—New York Press.

His Mistake.

There once appeared at the back door of a house a tramp who to the mistress of the place related a pathetic story of his troubles. This tale, however, did not greatly move the matter of fact woman, for she remarked dryly:

"That's the same story I had from the last hobo that passed." "Indeed?" said the tramp. "Then, madam, I perceive that I have been unwise not to have had my history copyrighted."—Judge.

Good Advice.

"Help! Help!" came the cry of distress through the midnight stillness. The policeman in the neighboring doorway stirred uneasily. "Advertise in the want column," he muttered and resumed his nap.—Philadelphia Press.

She Was Wise.

Spoonily—I am intoxicated with love for you. Miss Manyplunks—Oh, I see! And you want to try the gold cure?—Chicago News.

THE CIRCUS SIGNS.

Large Property Owner Says They Disfigure Property and Result in Damage Thereto.

Editor Telegram:

Won't you call attention to the owners of our business houses in regard to the habit of allowing circuses to use the walls of their store and other buildings for tacking the circus signs on. Last season every building in the city especially the large stores were covered with these circus signs for two months and today these same buildings show the old strips of signs hanging from them as well as the bricks being split and broken. It's bad enough to have the large, unsightly bill boards covered with circus pictures and it is time the property owners are looking after their interests and not allow such destruction and disfiguring of their property.
